

AP-1 Aluminum

The **AP-1 Aluminum** is the Full-ATX Tower out of our attractive aluminum series for Home-PC-Systems. You can recognize the timeless design with rounded corners and valuable impression immediately.

Furthermore the cases have translucent side parts made of black shaded Plexiglas – to put a decent spot on the illuminated fans for example. The blue lighted power button is flush with the front panel, 2x USB 3.0, 2x USB 2.0 together with the obligatory HD-Audio-connectors are perfect accessible on the right side of the front.

Both side panels can be dismantled easy by thumbscrews. This makes the mounting of the mainboard as fast and easy as possible. Inside the case you can mount ATX-power supplies. The HDD´s in the **AP-1 Aluminum** are fixed directly or with special frames at the bottom, front or cap of the case. Optional you can mount eight 2.5" or four 2.5"/3.5" HDD/SSD. Mounting space³ for several fans rounds up this offer.
