

## **GM-X02 – The gaming case with lots of features for the small purse!**

The **GM-X02** convinces due to its thought-out design and has a variety of features. To ensure a vibration-free operation of the PSU you have a decoupled space for mounting in the bottom of the case. The **GM-X02** offers up to 6 options for fan mounting. Moreover, two of them can be fixed behind removable dust filters in the cap of the case.

Another highlight besides the well-thought-out cooling concept is the easy and quick installation of all components. With a screwless mounting of internal 3.5"- and external 5.25" drives and the intelligent cable management the GM-X02 offers enough space for big graphic cards.

Further features of the **GM-X02** are the separated mounting options for up to two 2.5" HDDs, and the serial 120mm fan which is shining red through the mesh-grid. The four USB connectors (2 of them USB 3.0) are handily placed on the cap of the case and ensure a superfast transfer of your data.
