

## Argus APS-350 SYS

The **Argus APS-350 SYS** is designed specifically for the needs of assemblers. Created as a pure BULK product, additional costs for packaging are avoided which directly reflects positively on the price.

The main target group for this PSU are assemblers, so Inter-Tech decided to give it a simple design with great technical features. For example the super silent 120mm fan or the variability of connectors like the P4+4 and PCI-Express 6+2pin.

With an efficiency of more than 82% the **Argus APS-350 SYS** has a positive impact on your wallet and protects the environment.
