

IPC 4U-4129-N

The 4U-4129-N is a rack in 4U format with a long installation depth (650mm). This offers you the option to install even large mainboards (eATX). Thanks to its robust design, the case provides ample space for disks (up to 11x 3.5" HDDs). Mounting rails for screw less installation of the internal 3.5" and external 5.25" drives are in the scope of delivery.

For an optimal cooling of your hardware, seven fans are preinstalled. In addition a dust filter, that can be removed for cleaning, is located behind the lockable front door and prevents both removable hdd cages from dust. Front USB ports, one USB 2.0 and one USB 3.0, complete the offer.
