

Argus GD-35LK01 – Protects your data from unauthorized access

You are in possession of sensitive data? You want, that only you and no one else can have access to your data? Then our external case **Argus GD-35LK01** is the right solution! After mounting a 3.5" HDD you can comfortably transfer your data and then protect the drive with a 256-bit AES encryption.

Over the keypad you can set any code and thus make your data untouchable for others! If the hard drive will be removed and connected to another controller, the data can not be read! You can also protect as many hard drives with encryption as you want!

- ✓ 256-bit AES encryption
- ✓ USB 3.0 interface
- ✓ Screwless mounting
- ✓ Aluminum case

Specifications

Hard drive interfaces	1x 3.5" S-ATA I, II, III
HDD capacity	Max. 16TB
HDD height	Max. 26mm
External data interface	USB 3.0
Max. transfer rate	5Gbit/s
Supported operating systems	Win 2000/ME, XP, Vista, 7, 8, 8.1, 10 MAC 9.x, Linux 2.4x or higher
Plug&Play	•
LED	Power/HDD activity (blue) Case unlocked/Key operation (green) Set/Change password (orange) Case locked/wrong password (red)
Power	External 12V power supply
Material	Aluminum
Netto-Dimensions (H/W/D)	33/122/193mm
Package-Dimensions (H/W/D)	70/195/255mm
Weight netto	305g
Weight gross	675g
Packing units	1/20
Guarantee and Warranty	24 months guarantee
Article Number	88884068
EAN-Code	4260455640305
Scope of Delivery	Power supply USB 3.0 cable type B Anti vibration foam pads Manual (German & English)
Features	AES 256-bit hardware encryption Integrated numeric keypad Screwless HDD mounting
