

## **Argus KT022B – Adapter for M.2 SATA drives**

The KT022B adapter enables connecting two M.2 SSDs (42/ 60/ 80mm) to any SATA port inside a computer. Because of the inbuilt expander-chip you only need one SATA port for both SSDs. Just fix the M.2 SSDs on the adapter and mount it in a free 3.5" slot. The connection between board and computer is made by SATA data/power. The scope of delivery includes mounting screws as well as a small screwdriver.

- ✓ Expander-Chip (only 1 SATA port needed)
- ✓ Frame made of stable plastic
- ✓ SATA III Standard
- ✓ Fast data transfer

## **Specifications**

Drive connectors	2x M.2 SSD (NGFF, B-Key)
