

## 2873-TX Extreme

Due to its big size and features the **2873-TX Extreme** is the perfect choice for all customers who need more space for hard drives on the one hand and wants to ensure a perfect cooling of the components on the other hand. The standard 180mm top-fan provides excellent cooling properties. 2 optional 140mm fans in the front door can be installed to improve this effect.

Practically the external 3.5" drive bay is inserted into a 5.25" drive blind so that it can be mounted in any of the nine 5.25" bays. The cage for up to 4x 3.5" drives is also removable and variably attachable.

There is also the additional option to order up to 2 more cages which provides the opportunity to use 12 hard drives simultaneous. Screwless mounting of the drives with Easy-Clips makes the installation an easy task.
