

## **Sunlight SL-101 – A small and compact ATX case**

A good structured and compact desk space is nowadays an economical and procedural necessity. In order not to waste too much space for the needed PC, Inter-Tech has brought the extremely compact **Sunlight SL-101** to the market. Despite its small dimensions a standard ATX-mainboard and many different drivers can be mounted into this case. For this purpose the 3.5" drives have to be installed vertically. And even long graphic cards can be built into the **Sunlight SL-101**.

To counter the heat generation in these cases a multitude of fan mounts are integrated. Thumbscrews for the side panels and the modern design let no room for complaints.
