

The **A-2976 Elegance** is a Micro-ATX case for more demanding costumers. Whether it is the high quality front panels with piano finish and classy aluminium stripe with integrated power button or the robust chase with surprisingly much space with this case there is no complaining.

Four well placed front USB-connectors makes a USB-Hub dispensable. Also HD-Audio standard front-connector enables a fantastic clear sound. Many features like the removable HDD-cages, the possibility to add any graphic card or the standard Airduct in the side panel makes this case something special.
