Inter-Tech Elektronik Handels GmbH

ARRIS-A1 – The Micro-ATX Desktop

This little case has enough space for everything you need in a modern PC. Removable device cages make the installation an easy task.

A system of clever arranged air entrances in the top cover and in the side panels provides enough circulation of air for your hardware.

Front USB and Audio connectors are hidden by a discreet flap. The external 3.5" drive bay is also covert under an unobtrusive door.

Furthermore a standard 350W TFX power supply provides more than enough power for every home computer system.

Discretion and elegance are the primary attributes of this case.

Specifications

Motherboard	ATX, µATX
Drive Bays	5.25" external:1(2)
