Article Number	88884035
EAN-Code	4260133122178
Scope of Delivery	Case Sheath USB-Y Cable eSATA Cable Screw Set Screw Driver Manual & Pictogram (German & English)

Please notice: If you want you use the L-2500 eSATA function without a power supply you have to plug in the provided USB wire too. But only plug in the connector on the slimmer part of the Y-cable which supplies only power. The thicker main wire provides power and data transfers. When you use it additionally to the eSATA wire only USB can be detected by the computer. So you won't be able to use eSATA.
