The **WD-01** is a modern desktop case, which offers space for a Mini-ITX or a Micro-ATX Mainboard.

On the front side it has an external drive bay. The card reader above and the USB ports (1x **USB 3.0** and 1x USB 2.0) below the drive bay offer many options for data transport. The use of an 80mm fan on the topside ensures efficient air exchange in the case. The two drive cages (1x 5.25" and 1x 3.5") can be removed in a series of simple actions and enable a fast assembly of the drives.

A 250W power supply* is already integrated and supplies the energy needed.

*Operating with Gigabyte® motherboards, in conjunction with the built-in power supply, can cause problems when switching.
