Care and maintenance

- 1) Keep all accessories out of the reach of children.
- 2) Keep the device dry. Liquids or moisture can contain minerals that will corrode electronic circuits. If your device does get wet, allow it to dry completely.
- 3) Do not use or store the device in dusty, dirty areas. Its moving parts and electronic components will be damaged.
- 4) Do not store the device in hot areas. High temperatures can shorten the

Bluetooth Speaker M7

life of electronic devices, damage batteries, and warp or melt certain plastics.

- 5) Do not store the device in cold areas. Usually, when returns to normal temperature, moisture can damage electronic circuit boards.
- 6) Do not attempt to open the device.
- 7) Do not drop, knock, or shake the device. Rough handling may break circuit boards and its mechanism.
- 8) Do not use harsh chemicals, cleaning solvents, or strong detergents to clean the device.
- 9) Do not paint the device. Paint can clog the moving parts and may cause function ineffective.

Disposal of waste

If you want to or have to change your device, please don't clean it up by normal garbage. Please use the special collection points for electronic waste. Please ask your local government for the right way of disposal of electronic waste.
