K-six Smart – The case for innovative users

This sophisticated case with many features such as easily removable drive panels from the front, two easily removable fan mounting brackets with dust filter and a completely continuous hdd cage let the heart of the professional assemblers beat faster.

Besides the diverse & easy mounting the sophisticated cooling concept is a further highlight of the **K-six**. In the lower part of the case the decoupled power supply is receptacle, which provides a vibration-free operation of the power supply. In addition to a standard 120mm fan on the back wall, the **K-six** offers numerous mounting options for additional fans with a maximum size up to 140mm. Two top-mounted and one floor-mounted dust filters ensure clean air circulation inside the case. In addition, the case can be equipped with a water cooling system. The **USB 3.0** interface provides a superfast transfer of your data to external media such as USB sticks.
