

## ITX SY-800

This Mini-ITX-Case provides enough space for one 5.25" external drive (DVD/CD), three 3.5" internal drives or one 2.5" internal drive (hard drive). The removable HDD cages and mounting brackets make the installation an easy task.

The ventilation openings in the panels and on the back side of this case provide more than enough cooling for your equipment.

Furthermore, the case offers also the opportunity to mount a SFX or ATX power supply, so that it can provide more than enough power for all components.

The front ports with 2x [USB 3.0](#) and HD-Audio complete the picture of the case.

## Specifications
