

GM-6013 – The feature wonder within Micro-ATX cases

The **GM-6013** is a real multi-talent in matter of features! Starting with the front panel, besides the serial dust filters the case offers easy removable drive brackets which are assured with an intelligent quick release system and can be removed from ahead. The case offers four USB front connectors, two USB 2.0 and two **USB 3.0**. To round up the picture the **GM-6013** has two blue illuminated LED-elements in the front.

The **GM-6013** knows also to convince with its interior! Serial dampener for the internal mounting of up to four 3.5" HDD's or optional up to six 2.5" HDD's, reusable slot brackets, a removable dust filter in the bottom of the case as well as a variety of mounting options for fans in the bottom, rear and in the front of the case are part of the thought-out plan.

A further highlight of the **GM-6013** is the option to remove the rear part of the HDD cage – tool less. When the cage is removed the case offers space for graphics cards up to 36cm (standard 25cm) depth. This feature gives the case variability to be used in office and gaming solutions.

Specifications

Motherboard	µATX
Drive Bays	5.25" external: 1 3.5" external: 1 3.5" internal: 4/0* 2.5" internal: 0/6*
