

The CK-38 Domino – The simple case with the special note

This case is lacquered with the common matt black and silk like coating of the CK series. Elegant applications like the high gloss binding of the 3.5" drive bay or the silver stripe above the 5.25" drive bay brightens up the design.

Additionally there is the possibility to mount up to 3 extra 5.25" drive bays behind the big front flap.

All front connectors and controller are placed well reachable vertically on the front panel. Naturally, all audio connectors are HD-Audio/AC97 compatible and all USB have 2.0 standard. A rugged workmanship and a spacious internal completes this outstanding product.

Specifications
