

Frontpanel opened

Interior view

The **M-261** is a modern desktop case, that offers space for a Mini-ITX or a Micro-ATX Mainboard (max. depth 210mm).

The front door can be opened up to the side and releases the external drive bay. The 2in1 card reader, the USB and audio connectors are placed at the edges of the front bezel and can be used without opening the door.

A powerful 300W power supply provides enough power for all components.
